Project Idea

Reason for application	Youth interacting with biblical books in fun ways. Many may not understand KJV English. We'd like to create a new way for youth to engage with the Bible.
CS - Current Solution	We currently write board books and children's books, but would like to heighten the experience to expand the age group and audience. We believe this will attract more people to read biblically based text.
CS - Who are users?	Young children and youth
CS - Software Access Point	Android app (phone or tablet); Apple/iOS app (phone or tablet)
Other Access Point	
CS - Additional Constraints	Not that we know of
CS - Concerns with student ownership?	Yes, I have concerns.
CS - Describe Concerns	We'd like to own the copyright to the characters and be able to modify the code if needed and/or to expand the project. Not sure if we can do that if we don't have ownership.
CS - Protected health information?	No
Additional information	Our website is ancientpathadventures.com. This is a good example of the project vision https://www.zachkingmagic.com/

Project Name Augmented Interactive Education Platform

Description Ancient Path Adventures is a creative ministry. Our project will combine bible stories with general education topics in an Augmented Interactive Education Platform. Elementary students can enhance their learning journey through augmented books that feature AR components and QR codes. The QR code will lead to the web-app which features: Module quizzes associated with student accounts and leaderboards. Facilitators can track student progress, assign new modules and award students through the platform.
